ABATE® 10SG MOSQUITO LARVICIDE GRANULES

ACTIVE CONSTITUENT: 10 g/kg TEMEPHOS
(an anti-cholinesterase compound)

GROUP 1B INSECTICIDE

For the control of mosquito and midge larvae by treatment of breeding areas.

NET CONTENTS: 20 kg

BASF Australia Ltd ABN 62 008 437 867

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHOURISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS
Apply granules by means of compressed air applicator, backpack granule distributor or gloved hand. Do NOT use more than 30 g of product in each 1,000 L of treated water.

INSECTICIDE RESISTANCE WARNING

GROUP 1B INSECTICIDE

For insecticide resistance management ABATE 10SG Insecticide is a Group 1B Insecticide. Some naturally occurring insect biotypes resistant to ABATE 10SG and other Group 1B insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if ABATE 10SG or other group 1B insecticides are used repeatedly. The effectiveness of ABATE 10SG on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, BASF Australia Ltd accepts no liability for any losses that may result from the failure of ABATE 10SG to control resistant insects. ABATE 10SG may be subject to specific resistance management strategies. For further information contact your local supplier, BASF Australia Ltd representative or local agriculture department agronomist.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
Do NOT apply to areas of water where birds are actively foraging, particularly where birds may obtain large quantities of larvae affected by ABATE or where rapidly dropping water levels or shallow depth allows birds easy access of larvae. Do NOT apply granules to dry areas. Do NOT apply to areas where treated water may adversely affect crustacea or molluscs. Where possible, consider reducing application rates where water on breeding sites is of a general depth less than 30 cm. If not used according to label directions, this product can be highly toxic to birds and aquatic organisms.

STORAGE AND DISPOSAL
Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. If recycling, triple or preferably pressure rinse containers before disposal. Do NOT dispose of undiluted chemicals on-site. Bury the rinsate below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should NOT be burnt.

APVMA Approval No 33091/0500 (V07/09/10)
SAFETY DIRECTIONS
Do NOT inhale dust. Wash hands after use.

FIRST AID
If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone 131126 Australia-wide.

MSDS
Additional information is listed in the Material Safety Data Sheet.

CONDITIONS OF SALE: All conditions and warranties rights and remedies implied by law or arising in contract or tort whether due to the negligence of BASF Australia Ltd or otherwise are hereby expressly excluded so far as the same may legally be done provided however that any rights of the Buyer pursuant to non-excludable conditions or warranties of the Trade Practices Act 1974 or any relevant legislation of any State are expressly preserved but the liability of BASF Australia Ltd or any intermediate Seller pursuant thereto shall be limited if so permitted by the said legislation to the replacement of the goods sold or the supply of equivalent goods and all liability for indirect or consequential loss or damage of whatsoever nature is expressly excluded. This product must be used or applied strictly in accordance with the instructions appearing hereon. This product is solely sold for use in Australia and must not be exported without the prior written consent of BASF Australia Ltd.

THIS PRODUCT IS NOT CONSIDERED TO BE A DANGEROUS GOOD UNDER THE AUSTRALIAN CODE FOR THE TRANSPORT OF DANGEROUS GOODS BY ROAD AND RAIL.
