- ★ SUFFICIENT BAIT IS INCLUDED TO REBAIT THE TRAP FOUR TIMES.

See Overleaf for Detailed Instructions

## OFFICIAL TEST RESULTS

THE EFEKTO FLY TRAP HAS BEEN OFFICIALLY TESTED BY AN IMPARTIAL GOVERNMENT AUTHORITY. IT WAS FOUND TO BE A MOST EFFICIENT AND EFFECTIVE TRAP. HOWEVER, NO GOVERNMENT DEPARTMENT IS ALLOWED TO ENDORSE ANY PRODUCT FOR ADVERTISING PURPOSES. BUT INTERESTED PARTIES CAN CONTACT US DIRECTLY FOR FURTHER DETAILS AND FULL INFORMATION REGARDING THE RESULTS OF THE TEST.

Baiting Instructions for the

## EFEKTO FLY EXTERMINATOR

THE FLY TRAP THAT'S GUARANTEED TO WORK...

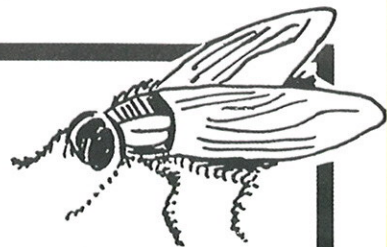

1. (a) Pour the contents of one sachet of dehydrated fly bait into the plastic container and fill with 3/4 of a litre of water. It takes four to five days for the bait to become activated and it will fill with time, depending on the fly infestation.  
(b) Shake or stir the water and bait mixture once per day for the first 7 days, as this will help to activate the bait. Do not remove the red cone section.
  2. (a) **SLIGHTLY MOISTEN** bait periodically to compensate for any loss of water due to evaporation. Shake or stir the mixture at the same time.  
(b) The dead flies become part of the bait. As the height of dead flies rises in the cannister, ensure that the water level is kept just below the height of the level of dead flies.  
(c) **DO NOT ADD TOO MUCH WATER.** Failure to moisten or adding too much water reduces the effectiveness and active lifespan of the bait.  
(d) Do not allow the contents of the trap to become waterlogged due to exposure to rain.
  3. Once the red top cone section has been fitted, water can be poured directly into the trap through the space where flies enter the red top cone section. Simply tilt the trap slightly so that the water can run directly from the tap into the red cone section. A watering can or hose pipe can also be used if preferred.
  4. (a) The trap should be rebaited when the it is approximately half filled with dead flies. It is also important to clean the inside of the cannister thoroughly if this has become soiled. Flies will enter the trap more readily as they are attracted towards the light. **Do not use methylated spirits to clean the cannister.**  
(b) When rebaiting, simply bury the old contents under 30 centimetres of soil. It now becomes an excellent organic fertilizer.
  5. Unique, natural, organic dehydrated bait formula is made from food substances and is perfectly harmless. Use the bait within six months as it will lose some of its potency after this period.
  6. The fly infestation is seasonal in most areas. Consequently the fly catching rate will vary considerably, depending on the season.
  7. Sufficient bait is supplied to rebait the trap four times. Extra bait is available from your local stockist or may be obtained by re-ordering from Avond Agencies PO Box 202 Dianella WA 6059.
- Please send a cheque or money order for \$29.70 (includes postage + GST) for a further supply of 4 packets of bait, (i.e. 16 sachets).

# SOLUTION IN FLY CONTROL

with the FLY TRAP THAT'S  
GUARANTEED TO WORK...

\*Patent Pending No. PH7901  
Design Application No. 98774  
103029 and 104418

• Stables • Sheep Stations • Cattle Pens • Dairy • Barbeque • Poultry • Household • Pets

"I have found the trap to be very effective...it has reduced the number of flies getting into the house by 90%. Thank you for the excellent product - L.A.S. Markwood, VIC. 3678"

"I am most impressed with the Efeito Fly Exterminator. Now, six days later it is already half full of blowflies. There is only one word for this product - Fantastic". C.P. - Calista, W.A. 6167

"We have found the two traps work extremely well in keeping our chook pen free of flies". Dr. S.E.H. - Leeming, W.A. 6155

"Your fly trap is an excellent product and is very effective. It would be the best fly trap we have ever used". L.M.C. - Peak Hill, N.S.W.

"Thank you again for the bait and also the relief from flies. It's marvellous". C.A.T. MacKay QSLD.

ACTUAL PHOTO TAKEN AFTER 3 WEEKS TEST BY IMPARTIAL GOVERNMENT DEPARTMENT.  
(TESTED IN APRIL - AUTUMN PERIOD - WHEN GENERAL FLY INFESTATION IS FAIRLY LIGHT.)

The Efeito Fly Trap has been officially tested by an impartial government authority. It was found to be a most efficient and effective trap. However, no government department is allowed to endorse any product for advertising purposes. But interested parties can contact us directly for further details and full information regarding the results of the test.

The solution to ridding your outside environment from the fly menace is now here!

## Uses No Poisons or Toxins

The natural, organic bait contains no poisons. It is activated when placed in water. Environmentally friendly and completely safe for children and pets. This allows you to enjoy your barbeque without the fly menace.

## Independent Government Test Results

The results from an impartial Government test has proved conclusively that Efeito Fly Trap really does the job quickly and efficiently.

## Seeing is Believing

The trap has a clear plastic container which enables you to actually see and monitor its effectiveness. You'll be amazed at the volume of flies being caught!

## Easy Maintenance - No Touch Cleaning

The bait is supplied in dry powder form. Simply by adding some water, the bait is activated and the flies are trapped by the thousands.

## Free Bait

The trap is supplied with four free bait sachets, which will last from 4 to 6 months, depending on fly infestation. Extra bait packets containing 4 sachets can be reordered as required.

## 100% MONEY BACK GUARANTEE

If not completely satisfied with the Efeito Fly Exterminator, simply return in good condition together with unused bait sachets within 20 days from date of purchase for a full refund.

The Efeito Fly Exterminator is also guaranteed for a period of 12 months against any defect in manufacture.
